Date

Hallo Andy,

I received Birth notifications from you.

I can not register these lambs without a father.

If you are not sure of the fathers these lambs can only be registered with Inspection as Appendix A. You have to get a inspector out to come and inspect these animals and send me the Inspection list where the inspector signed and give the date that the inspection took place as well as his inspectors number.

Please don't send the lambs through on Bengufarm. It keeps on sending me errors because it needs the father. Rather do the inspection and then send it to me otherwise I am going to keep on sending you the same mail of the fathers.

Kind regards

--
