Goeiedag

Hoop dit gaan goed.

Sien asb aangeheg die resultaat van bg bondel.

Is die volgende bulle moontlik as die vaars?

17929U003: CKB18-0054 (3062U007), SYF12-0042 (A477288), AG10-0384 (A477266)

17929U117: CKB15-0092 (A477278), CKB18-0054 (3062U007)

Indien meer as een bul pas as vaar en nie volgens julle teel rekords onderskei kan word tussen die bulle nie, sal dit baie moontlik help indien 'n monster van die betrokke kalf se moeder aan Unistel gestuur word.

Ons waardeer julle ondersteuning en sien uit daarna om weer saam te werk.

Ons vertrou dat alle inligting wat aan ons verskaf word volledig en korrek is. Ons kan slegs resultate verskaf met die inligting wat ons tans op rekord het. Sommige STR-profiel wat in ouerskapanalise gebruik word, is moontlik van 'n ander laboratorium verkry. Alhoewel alle redelike pogings aangewend word om verkeerde resultate te voorkom, aanvaar Unistel Geneeskundige Laboratoriums geen verantwoordelikheid vir ouerskap-mispassings as gevolg van onversoenbare merker analise strategieë tussen laboratoriums nie.
