A Boran will be entered into the call book section (SP/No CLB) on receipt of the call birth notification. A Boran will be promoted to Southbook Proper (SP/No REG) on passing inspection. A Boran that has been birth notified but registration is pending resolution of an outstanding issue is not a registered Boran in terms of these sale rules. Examples could include the following: Parentage not Verified (P/NV), Parents not Registered (P/NR), MS (Multi Sire Inquiring Verification), Sire requiring verification (RES) and Dam requiring verification (PED).

- 1.1.2 Inspection is a visual appraisal of a Boran by BCBSS approved inspectors to ensure compliance with the society's standards of excellence. A Boran must pass inspection to be promoted to the Southbook Proper (SP/No REG) section of the society's herd database within the stipulated timeline. A Boran that is in inspection will be designated and removed from the herd database.

- 1.1.3 Screening of sales is an appraisal of a Boran for functional faults and compliance with society norms and minimum breed standards. In the case of Boran stall registered in the call book section of the herd book, screening does not qualify as an inspection.

- 1.1.4 A Dispersal Sale will be held by a breeder who is permanently discontinuing the business of breeding and farming with registered Boran, and consequently needs to sell all his registered animals to facilitate deregistration as an active breeder with the society. - 1.2.3 your clients are protected in that all animals on offer meet the breed standard;

- 1.2.4 your clients have a reliable method of addressing possible queries and complaints;

- 1.2.5 the breed develops a trustworthy reputation in the beef industry which builds buyer confidence and peace of mind;

- 1.2.6 the society can support you in the event of queries, dispute resolution, marketing and publicity;

- 1.2.7 the benefits of "quality at a fair price" is offered to both buyers and sellers and the society builds the trust of the buyer market, ensuring the sustainability of our breed.

4.1 The seller is required to submit all the required information to the Society 28 days before the date of the sale. Example: If the auction is on the 30th July the latest submission time and date would be at 17:00 on the 2nd July.

If an animal is substituted (replaced) with another animal at the cutoff date, a fee of R500 will be charged per lot to cover administration costs.

4.1.2.1 The late entry request form will need to be completed and submitted to the office.

4.1.2.2 The fee will be waived and charged to the breeder's account and will be payable, even if the animal is screened off at the sale.

A period of 5 (five) working days will be granted to the organizer to submit any changes that are required. The Society will then submit the final catalogue to the auctioneer two weeks prior to the sale date.

4.1.5 Should any information, provided by the breeder to the society for the catalogue, change between the date of submission in 4.3 above and the sale date then the onus is upon the breeder to access the office, the auctioneer and the inspectors responsible for the screening of such changes prior to screening.

4.1.6 The sale catalogue will conform to the SA Studbook design.

4.1.7 All the breeder's registered animals for sale will be listed in lot sequence in the catalogue.

4.1.11.2 Pregnancy must be recorded in months.

4.1.11.3 If a cow is sold with the calf, the calf's number and its sex must be recorded.

4.1.11.4 If the cow is pregnant, it must be recorded who the possible sire of the calf will be and how far she is pregnant. The possible sire's ID must be recorded.

4.1.11.5 If the heifer or cow is running with a bull's, the bull must be in possession of the seller or a loan bull to him. The bull's ID must also be recorded.

4.1.11.6 After that, further comments from breeder can be recorded.

5.2 The inspectors officiating at a sale screening may not sell Boran registered in their name on that same sale

5.3 All animals (Lot CIB and Appendix A, B, C) presented at the sale will be screened. Boran marked Not for Registration (NFR) will not be subject to screening. CIB (Car boot) animals that pass screening on the day of the sale are still subject to inspection at the required age.

5.9 A breeder of a Boran, both bulls and females that fail screening shall have either of the following two options:

5.9.1 Sell the Boran that has been screened off as a commercial animal at a commercial sale held not under the auspices of the society that takes place on the same day. The Boran will be designated (bear its SP/No held status) and will lose the right to reinstatement.

5.9.2 Remove the Boran screened off immediately from the sale area / sales pens. The Boran will retain its SP /No status on condition that the Boran is immediately returned to its farm of origin.

5.10 If either the cow or the calf has succeeded, then the entire lot will be deemed to have failed the screening and 5/9 will apply. Lot A and B, where the calf (Lot B) is between 9 and 15 months old and sale calf book, will be considered as one lot.

5.11 No other type of inspection may be carried out during sale screening.

5.12 At least one of the inspectors involved in the screening, or another official appointed by the Society, will be available on the day of the sale to provide a marketing presence for the seller and the Society to act in an advisory capacity to buyers and to ensure that the auction is conducted in compliance with the above rules.
