Hi Michelle

I am eventually getting around to sorting out all my edit lists

As per the additional two attachments Excel File – Final 2021 Open Heifers Appendix B Selection 3 August 2023 and PDF file - Skietlaagte Edit List Updates 2021 Appendix B, please can you make the following changes to some of the animals that we have annotated. As I have explained before I have a stud / appendix calf database and a commercial calf database each year both starting from 1. When we do the Appendix B selection each year to take animals from the commercial database to the stud / appendix database we have to change some of the numbers for example the first one on the list is 21-0008. I can't load the commercial cow 21-0008 into Appendix B because obviously there is already a 21-0008 SP cow already there so I have to change the appendix B animal's number to SF21-8000 to accommodate here on the system. The father is JRE18-35 as per the DNA Report and the Mother is SF18-38. SP Cow SF 21-08's Mother is SF18-29 but she has been culled as she didn't pass the inspection as per the other attachment that I have sent through 2021 SP Calf Database Final Final Final.

So you must now load the new numbers as per the list ie

SF21-8000 Sire JRE 18.35 and Dam SF18.38

SF21-0240 Sire GMO17.15 and Dam SF18.174

SF21-0420

SF21-0430

SF21-0450

SF21-0530

SF21-0560 Highlighted in purple. Once loaded this animal needs to be cancelled as it was sold at our auction on 16 Feb

SF21-0660 Highlighted in purple. Once loaded this animal needs to be cancelled as it was sold at our auction on 16 Feb

SF21-0620

SF21-0630

SF21-6600

SF21-0740

SF21-0760

SF21-0800 Highlighted in purple. Once loaded this animal needs to be cancelled as it was sold at our auction on 16 Feb

SF21-0920

SF21-0930

SF21-1080

ALSO

There were some other typos on the original list that I sent through which I have now highlighted in green.

Dam of calf SF21-0430 is in fact SF09-250 and not SF09-25

Dam of calf SF21-0520 is in fact SF11-320 and not SF11-32

Dam of calf SF21-0880 is in fact SF16-160 and not SF16-16

I hope this makes sense, but if you aren't sure please can you give me a call to confirm.

Thanks

Dave

Subject: Fwd: Birth Notifications Skietlaagte Farms

Good morning

Trust you are well. I am a bit confused with regards to the animals ID`s that needs to be changed. I am unable to change the animal ID due to diffent datasets. Kindly review and confirm the parental details of the animals below:

SF210006- change to SF 21-600 (each of these calves has different parents)

SF210024- change to SF21-240 (each of these calves has different parents)

SF210042- change to SF21-420 (each of these calves has different parents)

SF210043- change to SF21-430 (each of these calves has different parents)

SF210052- change to SF21-520 (each of these calves has different parents)

SF210063- change to SF21-630 (each of these calves has different parents)

SF210074- change to SF21-740 (each of these calves has different parents)

SF210080- change to SF21-800 (each of these calves has different parents)

SF210088- change to SF21-880 (each of these calves has different parents)

The screenshot shows a web browser window with a single tab titled "Parentage Summary of 2021 Appendix B Heifers amended.pdf". The address bar displays the file path: `file:///C:/Users/Spore1/Desktop/ANGUS/SUSSEX/Parentage Summary of 2021 Appendix B Heifers amended.pdf`. The document content is mostly blank, with a small table visible at the bottom left. The browser interface includes standard navigation buttons (back, forward, refresh) and a zoom control set to "Automatic Zoom".

Subject:RE: Birth Notifications Skietlaagte Farms**Date:**Mon, 4 Mar 2024 15:52:56 +0000**From:**David Mc Call <david@skietlaagte.co.za>**To:**Michelle <michelle@studbook.co.za>, Sonja Wasserman <sonja@studbook.co.za>

Hi Michelle

Thanks for attending to this. I am in the process of getting all my data sorted out for my per capita, so here are some other things we need to do. Some of which will answer the queries you have on these birth registrations below.

1. Please see attached inspection sign off from Martin Sefferdt that was done on the 3/7/2023. Please will you do the necessary cancellation for SF21-28 / SF21-48 / SF21-74 / SF21-78 / SF21-88 and SF21-116
2. On the 3rd August 2023 Martin and Arno did my 2021 Heifer Appendix B selection. Please see attached three files a) All the 2021 Heifers that need to be registered as Appendix B, as well as all their birth weights, parentage data and weaning, 12 month and 18 month weights. B) The dams of the 2021 Heifers and their data that need to be registered as Appendix A c) the Parentage Summary of the Sires of the new 2021 Appendix B Heifers. You will see that I have written in red some of the numbers that I had to change to accommodate these animals on the Logix database because there were already animals with some of the numbers on the database. Ie I already had SF21-06 registered as an SP Female, so that is why SF21-06 now becomes SF21-600. I hope this makes sense. If this is going to be a problem to register the sires of the ones in red, please let me know and I will get Zoomics to change them on their list and resend through. I don't think it should be a problem though as I can confirm who the sires are. We maybe just don't put that they have been DNA tested.
3. Once all the above has been done it will then answer some of the queries below. A) The Dam of calf SF23-186 is now Appendix B female SF21-630 B) The Dam of calf SF23-188 is now Appendix B female SF21-660 C) The Dame of calf SF23-189 is now Appendix B female SF21-56
4. FINALLY there was one typo on the Birth Registrations. The Dam of Calf SF23-182 is in fact SF18-135 and not SF18-35.

With regards the other three queries, I will get back to you on them shortly.

I hope this all makes sense, but if you need to please contact me tomorrow.

Sincerely appreciated.

Regards

Dave

On 04/03/24 10:17 AM, David Mc Call wrote:

Hi Michelle

Please see our final list of birth notifications for last year. Please can you add the calves from calf 177 to the final calf 193. We still have to submit the tail hairs for DNA verification of the sires but will do so in due course.

Also I will be sending in all the Sire confirmations for the calves already registered which will reduce our pending list considerably.

If you have any queries please contact me.

Many thanks

Dave
