Thank you for those 70 results.

Please could you send through the other 122 animals scored excluding the ones that had problems on Jersey SA side, when they are ready.

The animals with a problem were 17264, 18144, 18206. I'm not sure what the problem with them is, they have registration numbers and are alive and well and on our dimmsa. Please could you let me know how we can fix them

Regards
Jane
