Hi Marietjie

I hope this finds you well.

When I had my pregnancy tests done in February of this year all my females that weren't pregnant I cancelled. Because of the drought I couldn't have them slaughtered immediately as they weren't in good enough condition.

Two of the Beer Beef cows have calved and two of my Mapassa cows have calved so if you could please re-register them please:

Beer Beef:

WB10 101

WB12 107

Mapassa:

HR13 305

WE14 37

I hope this is in order?

Have a great week.

Regards,
Warwick.
