Dear Participant

It is per capita time at SA Stud Book again and we please need your urgent co-operation in this regard. With the Covid 19 lockout it is a good opportunity to get admin up to date.

Please hereby attached find your electronic per capita list, to be verified and corrected where necessary. Note that PHA animals will be locked. It is therefore important to rectify the status of these animals and let us have the corrections as soon as possible. The Pending- and Edit lists are being sent out every week for the last few months and we receive good feedback.

The per capita is also available on Lysie under the heading "Reports". Click on "Inventory" and download your herd's inventory from the "Inventory list".

Rectifying find Book of corrections can be done in one of the following ways:

1. Print the attached list, do the corrections and send it back to SA Stud Book, at PO Box 270 Klomfontein 9086 or fax 051 447 2644. Please note that the list must reach Stud Book before 31 July.
2. Use the electronic per capita function on Lysie. Go to the options "Data Input", "Consolidation" and pick "Electronic Inventory list" to do the correction list, online. Select the animal in question, pick the date and reason from the dropdown box. After having worked through the list, click on the "Substies verander" button. These animals will be cancelled on the system within a few hours. You can, for control purposes, download the Inventory.
3. Send your consolidations through your farm software program as you are used to.

Please confirm receipt of this e-mail by replying on the "read confirmation" option on the e-mail. If you do not confirm receipt, we will resend it next month.

Please do not hesitate to contact me if you have any questions. It is important to note that you will be locked for the animals on your per capita as on 1 July. Correcting your list in time is important.

Kind regards

Herman Labuschagne
