1801:
 Failed inspection

1811:

He was inspected when Johan was here but im not sure why he didnt record his scores? Hi dam is 1012 who is registered so could we just record his birth? However, he is a very average bull so can we also cancel his registration.

1813 and 1817:

Are out of Bester cows... something i want to look at tomorrow and see what needs to be done :)

1814:

He is out of 1003 who has a few issues with her registration.

1820:

He passed his inspection as well as his dam 1320. Could we get him registered as he is our best looking bull from the 2018 season :)

Thanks Michelle.
