Middag Michelle

Neem asb die aangehegte DNA op rekord. Ek het vir jou per nommer aangedui wat is wat. Ek gaan vir die teler 'n navraag stuur oor van die diere. Daar is diere wat gekanselleer is, maar dit is baie belangrik dat die DNA wel moet verskyn ek het dit met Herman bespreek en hy het gesê as jy nie weet hoe om dit reg te stel nie moet jy asb vir Marietjie Delport vra.

Subject: DNA

Beste Sonja,

Ons het nie n plaas nie en ons diere is oor tyd deur verskeie boere versorg. Om die rede laat toets ek al ons kallers se DNA. Die doel is om dan waar ek nou is om beide die bul en koei van n kalf te bevestig. Ek het nou na van my diere gekyk en sien dat die DNA van eie geboortes MAW JC voorvoegsels nie gelaai is nie alhoewel die DNA wel getoets is.

Dit kos baie om die toetse te doen.

The verity of the results depends on the assumption that the submitted samples represent the animals that were indicated by the submitter. Although S.A. Stud Book is notified of all DNA numbers issued, genotyped and parentage results are kept confidential, except when the results form part of the annual mandated parentage verification program conducted by S.A. Stud Book. These genotypes were generated using proven technology for DNA profiling in livestock. While extensive measures were taken to ensure the integrity of these genotypes, the ARC assumes no liability for errors that may arise as a result of their veracity, interpretation and/or use.
