Subject: FW: BULLE OP STELSEL - JOHANN STRYDOM
Attachments: 7SP34 JSF GOLDENROD 57U.pdf

Hallo Ann,

Hier is die permit van die 1 dier – ek dink amper hy is die enigste een wat nie op die stelsel is nie.

Laat weet asseblief indien daar nog iets is.

Groete
Melissa

VETERINARY IMPORT PERMIT FOR BOVINE SEMEN FROM
THE UNITED STATES OF AMERICA

[Issued in terms of the Animal Diseases Act, 1984 (Act No. 35 of 1984)]

With reference to Permit No S0025/24-1 date 2024-02-15 issued in your favour by the Registrar, Animal Improvement Act, 1998 authority is hereby granted to introduce into the Republic of South Africa 31 doses of semen provided that the following conditions are complied with:

1. By making use of this veterinary import permit, the importer, named above, accepts the sole responsibility to ensure that all the conditions stated in this veterinary import permit and the veterinary health certificate on the overleaf, are complied with in full.
2. The consignment may only be exported from the **United States of America** to South Africa, and may not travel by land, air or ship through any third country or area, unless written permission is granted by the Director Animal Health.
3. The consignment must be accompanied by:

3.1 this original import permit and

3.2 the agreed upon model health certificate, completed by an official veterinarian duly authorised by the USDA, certifying the following conditions:

3.2.1 The donor bulls have been housed at an artificial insemination (AI) center which is recognized by the United States Department of Agriculture as approved to produce bovine semen for export. Bulls are entered into the production unit by a system of quarantine and testing and the production unit is tested semi annually for diseases of concern. The bulls were continuously resident within the center for at least one month prior to collection of Semen for South Africa, and in that time were not used for natural mating.

3.2.2 The United States is free of Foot-and-mouth-disease without vaccination, rinderpest, surra, and contagious bovine pleuropneumonia.

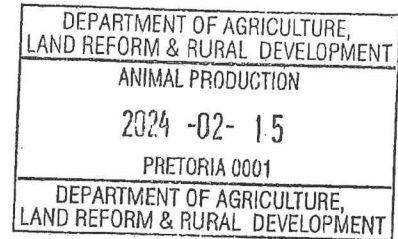

3.2.3 The AI center has been clinically free of infectious bovine rhinotracheitis (IBR) and bovine viral diarrhea (BVD), enzootic bovine leucosis (EBL), Johnes disease for at least 12 months prior to collection of semen for export.

3.2.4 The donors were tested and examined prior to entry, during isolation before entering the resident herd, and before semen release for bovine viral diarrhea virus in accordance with the CSS Minimum Requirements and found free from this disease.

WORLD WIDE SIRES, 5545 AVERIDA DE LOS ROBLES, VISALIA, CA, USA.

TOTAL: 31

CONDITION

- Certification by the exporting country that the number of unfrozen (live) spermatozoa per dose complies with the minimum amount specified on the reverse side of this document.**
- DNA profiles must be provided to the Registrar of Animal Improvement, and the relevant Breeders Society before release from quarantine, if not available at time of importation.**

This authorization is subject to the compliance with the veterinary requirements set out in the attached permit and is also subject thereto that the intended importation meets with all the provisions of the said Act. This authorization does not exempt the importer from the provisions of any other law. This authorization may withdrawn by the Registrar should any false information be discovered in the application. This authorization is also transferable. Imported semen shall under no circumstances be transferred, sold, given or donated to may other person or body unless prior written approval from the Registrar has been obtained. Any such approval shall be considered as new application for the importation of semen.
