Good Day Marietjie

Would you kindly assist me in loading a calf with the following information please.
The bull whose seed was used to Ai the cow is under an American registration and LOGIX does not want to accept the number.

LIL 200051 11-09-2020 female - Cherese
Colour: black
Polled : polled
Birth weight: 30kg
Dam : WB120009 - 0075347518
SIRE: RENOWN 3439 IAN01365 - 17633839

Thank You very much
Kindest Regards
Adrean Verster

Good Day Marietjie

Thank you very much I for loading the embryo calves.

I accidentally removed LIL 180051 instead of contacting you to correct the gender. LIL 180051 was mistakenly registered as bull instead of a heifer.

Please would you kindly reinstate LIL 180051 as a female. I am not sure if she has been on the inspection list yet or not. Her information is as follows

LIL 180051 17/11/2018

DAM GLO 150005

SIRE GLO 150009

Thank you very much

Kindest Regards

Hi Adrean

All the animals AC 180558; 180557; 180562 and 180563 were embryo calves and the DNA was only sire valid and the sire and dam must be valid that is why the PEN/PNV did not change.

When that is done the transfers will be done.

Enjoy the day~!

Good Day Marietjie

Please would you kindly advise as to why the previously mention calves are still not able to be loaded onto Mr Hartley's name?

I see that they are now on an EDIT LIST that says they cannot be transferred and have been cancelled however the necessary information was sent months ago

to be sorted?

Thank you for your help

Kindest Regards
