Hi Marietjie -

There are a few errors I need to alter on logix.

E190299 does not appear on logix. This is a heifer that was originally registered as a bull calf. Her DOB was 7/7/19 Wt 24kg Dam E150038 and sire South Dakota. Please can you enter her. I do not have a computer no.

E190349 Comp no. 89048508 is entered as a bull calf and is a heifer. Please can you change that. The rest of the data is correct.

E190265 Comp. no. 90440678 does appear on logix is pending - not sure why?

E190293 does not appear. His DOB 8/6/19 Wt 22kgs Dam E160028 Sire E150097 - name Blade I see that cow was supposed to have a commercial calf but that is an error? It was the calf of a commercial cow..

E190218 Comp. no. 88269428 is marked as sold but has come back home so please reinstate her.

Thanks Judy
