Middag Andre,

Ek heg die DNA verslag hierby aan. Die verslag word ook aan Stamboek
getsuur vir die aantekening van die ouerskappe.

Vriendelike groete,

Hannelize Swart

Fwd: FW: DNA Verslag...

From Andre Reitsma <andre.kainos@gmail.com>

Date S

Hi Sonja,

P2962-2994_15_Reitsma.d...

Aangeheg n DNA verslag wat deur Hannelize aan stamboek gestuur is.

Mails is aan Suzette gestuur. Sy kan nie n bewering maak dat sy dit nie ontvang het nie.

Ek verkoop my diere as Vaar met DNA gevarivieer. Nou is n klomp diere verkoop en die eienaars kan se ek vertel leuns. Ek het selfs diere wat ek ingekoop het se ouerskap laat toets maar weet nie of dit gelaai is nie.

Hoe stel ons hierdie reg. Hier is heelwat meer mails wat aan Suzette gestuur is.

Elke kalf van my is getoets.

Andre

REQUEST FOR DNA PATERNITY VERIFICATION

Please note that sires can only be included or excluded in the absence of a nominated dam. Inclusion does not automatically imply positive paternity.

<i>Calf</i>	<i>DNA #</i>	<i>SIRE</i>	<i>DNA #</i>	<i>Included / Excluded</i>
Roza	P1981/18	IBA12.2512 (Marico)	SER2068	Included as possible sire

The verity of the results depends on the assumption that the submitted samples represent the animals that were indicated by the submitter. Although S.A. Stud Book is notified of all DNA numbers issued, genotyped and parentage results are kept confidential, except when the results form part of the annual mandated parentage verification program conducted by S.A. Stud Book. These genotypes were generated using proven technology for DNA profiling in livestock. While extensive measures were taken to ensure the integrity of these genotypes, the ARC assumes no liability for errors that may arise as a result of their veracity, interpretation and/or use.
