Ek het nou whatsapp ontvang, maar nie die epos nie.

Ek het dit aan myself nou ge-epos. Ons mag glad nie van WhatsApp werk nie, alles moet deur epos kom asb.

Stuur asb nou net die bewys van betaling aan my sodat ons die proses kan begin.

1. The first step in the process of creating a new product is to identify a market need. This involves conducting market research to determine what consumers want and what problems they are trying to solve. Once a need is identified, the next step is to develop a concept that addresses this need. This concept should be unique, valuable, and feasible. The third step is to create a prototype of the product. This allows the company to test the concept and make any necessary adjustments before moving forward with production. Finally, the product is launched into the market, and the company monitors its performance and gathers feedback from customers to make improvements.
