Hi Marietjie,

I see there are still some cattle on logix that are pending. I am working on the ones I can see are not DNA verified but the following are done.

E200017 no P2547/20 sire Unanimous

E200025 no P2561/20 sire Unanimous

E200034 no P2514/20 both parents

E200056 no P2542/20 both parents

E200058 no P2541/20 both parents

E200060 no P2522/20 both parents.

Please can you tell me if I need to do anything else?

Thanks Judy
