Hi Suzette

Please add DNA profiles for the following :

- B) WPB 19 066 – WPB 17 099 (was previously ORCA 17 011) dam x WPB 12 053 sire
- C) WPB 19 078 – Orca 16 013 dam x SWR 10 027 sire
- D) WPB 19 019 - WPB 14 005 dam x WPB 11 051 Sire

Regards
Richard

Subject: RE: result of batch 2902U

Good afternoon Richard

Could not find a sire for 2902U001.

2902U004—The animal with tag Z has got the same profile as WPB17-0099—I did not know the age of the animal Z—I have removed the dam on the result—see attached.

Kind Regards,
Elzet Smit

Hi Elzet

2902U001 - did you test for a sire against all our bulls on the lists?

2902U004 – Z is the dam – is there another number or detail for this ???

Regards

Richard

Subject: result of batch 2902U

Good morning Richard

I trust this email finds you well.

Attached please find the preliminary result of the abovementioned batch.

The following sample(s) are being repeated in the lab, as the first extraction was unsuccessful:
 2902U002—dam of 008
 2902U025

2902U029

2902U012—which dam?—to many combinations

We trust all the information provided was correct and complete. Should there be any information missing or incomplete, please do not hesitate to forward it to us.

We appreciate your support and look forward to working together again soon!
