Unistel report these results on the premise that the biological samples received are from the individuals nominated by the owner/ breeder/ requester. This Certificate replaces all previously issued certificates. Disclaimer: While every reasonable effort is made to ensure the reliability of the results, Unistel Medical Laboratories does not accept any responsibility for any losses that may occur as a result of human or technical error. The results are for the client's use only. Should you require any further information, please contact the client services department.

Please note: some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatible marker scoring strategies between laboratories. Unistel Medical Laboratories participates in ISAG comparison testing and therefore incorporates international scoring standards in the generation of our STR profiles.
