Dear Willem

Thank you for choosing ZooOmics™ for your animal genetic services.

Please find the DNA profiles (2), parentage certificates (2), SPD log, parentage summary, and Studbook output attached to complete order ZO2025-9283.

Please note that no dams were indicated, but if you would like us to include the mothers, please feel free to send us the candidates and we will re-run the analysis.

We would also like to highlight that the profile received for sire N140015 (U247993) is just 11 markers long, and it is recommended that a hair sample be submitted to generate a longer profile.

Please do not hesitate to contact us should there be anything we can assist with.

Kind regards
