Good afternoon Miki,

All of the best for 2026 !!

Can you please capture the matings for KDT 22-69 as well as KDT 23-428 by the bull CEF 20-353 - they were both served by him in a single sire mating group period 15 Des 24 - 7 March 2025.

I hope you will find it in order

Good day,

Hoping you had a wonderful Christmas time!

Unfortunately we need the owner of CEF 20-353 (Kobus du Toit) to send in all the information via e-mail, only the owner (or co-owner) of a bull can register information regarding his offspring/matings etc.

I have cc Kobus into this conversation and I am sure he will provide us with the information as soon as he is back from holiday.

You are more than welcome to contact me at the office for any further enquiries.

Have a nice day.

Kind regards,

Miki Fourie

Good afternoon mevrou

I trust you are well. I had a chat with Kobus du Toit this morning. He is still on holiday, but the first calvers KDT 22 069 and KDT 23 428 were mated to the bull CEF 20 353.

So could you please help us by creating a mating on Logix for the two young cows.

Your assistance with the above will be very much appreciated.

Good morning Chantelle

I trust you are well. Compliments of the new year. As per our telephonic conversation, I sent through birth notifications for my new born calves born from August 2025 onwards. Unfortunately, they do not appear on my per capita list. I did send the birth notifications onto Logix. I have attached on this email the birth notifications that I generated on my bengufarm program.

Also, last year in October 2025 I purchased two first time calves KDT 22 069 and KDT 23 428 from Kobus du Toit. He says he sent through their matings. But I cannot pick the matings up on Logix.

Your assistance with the above will be very much appreciated.

Yours sincerely
