Good afternoon,

I hope you are well.

Attached please find the results for **Batch 46823**.

We trust that all information provided to us is complete and correct. We can only provide results with the information we currently have on record. Some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatible marker scoring strategies between laboratories.

We appreciate your support and look forward to working together again soon.

Wishing you a wonderful day.

Kind Regards,

Lerato Ngakane
