Goeie Middag

Julle DNA is nou op die stelsel.

Let wel die volgende bulle :

WO 17 0209 20-FEB-20 /Sold-Commercial **Semen gehou van die bul**

SB 19 0721 Nie in julle besit nie **Ons het saad gekoop op die veiling**

WO 10 0237 20-JUN-13 /Cull-Unknown reason(**3Waar pas hierdie bul in?**

WO 18 0435 Nie in julle besit nie **Saad terug gehou van die bul**

Heerlike middag vir julle

Goeiedag,

Hoop dit gaan goed.

Sien asb aangeheg n opdatering van bg bondel nadat die HER02 sample/s suksesvol voltooi is.

Ons waardeer julle ondersteuning en sien uit daarna om weer saam te werk.

Ons vertrou dat alle inligting wat aan ons verskaf word volledig en korrek is. Ons kan slegs resultate verskaf met die inligting wat ons tans op rekord het. Sommige STR-profiele wat in ouerskapanalise gebruik word, is moontlik van 'n ander laboratorium verkry. Alhoewel alle redelike pogings aangewend word om verkeerde resultate te voorkom, aanvaar Unistel Geneeskundige Laboratoriums geen verantwoordelikheid vir ouerskap-mispassings as gevolg van onversoenbare merker analise strategieë tussen laboratoriums nie.

Subject: Result of batch 26759U

Good day,

Hope everything is well.

Please see attached the preliminary result of the above batch.

There was no bull nomination as per the request form.
The batch was tested against your animals on record. Please advise if the matches are not possible according to your mating records.

We are in the process of repeating the following samples in the laboratory:
HER02:
26759U046

We appreciate your support and look forward to working together again soon.

We trust that all information provided to us is complete and correct. We can only provide results with the information we currently have on record. Some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatible marker scoring strategies between laboratories.

Kind Regards,
Elzet Smit
