Hi there

Unfortunately he cannot be re-instated without a current inspection. If you send the inspection to me I can do the necessary.

The person inspecting the bull can just send me an e-mail confirming that the bull has been inspected and has passed.

Have a great day

Hi Twane,
Can you please reinstate JB230158 to calfbook.

There was an error with weights that I have just corrected with Ann that resulted in him being cancelled.

We have corrected the weight error now and will get him re-inspected tomorrow.

Thanks!

Regards,
Buster

The above submission was sent in with dat 15/08/2024. This was incorrect. All these weights were done on the 28th of May.

Are you able to change this to correct it because all of these bulls will have incorrect 12 month data as a result.

Buster
