Hi Chantelle

We need to register another female not sent. It's MAN081084 born on November 30, 2028 mother and father unknown, the birth weight is 30 and it was approved as A on August 21, 2010.

Please tell me if you need something else.

Thank you so much for your help!

Kind regards,

Hi Chantelle

I am trying to register the female MAN204130, whose mother is MAN173168. When I attempt to do so, a notification appears stating that the mother is not registered; however, when I try to register the mother, another notification appears saying she is already registered. Could you send me the computer number so I can register her?

THE ANIMAL BONFMAN 173168 was created on the system at an earlier stage. Please go back and fix

Thank you so much for your help.

Kind regards,
