---------	----------------	--------	------------	------	---	----------------------------------	-----------------------

Report Date: 23-Jun-2026 14:54

Disclaimer

Unistel report these results on the premise that the biological samples received are from the individuals nominated by the owner/breeder/requester. While every reasonable effort is made to prevent faulty results, Unistel Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. The results relate only to the samples tested. Should gross negligence be proven, the claim shall not exceed the value of the contract. Some DNA profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatible marker scoring or reporting strategies between laboratories. Unistel Medical Laboratories participates in ISAG compliant testing and therefore incorporates international scoring standards in the generation of our DNA profiles. This certificate replaces all previously issued certificates.

Discussion

Unilever report these results on the premise that the biological samples received are from the individuals nominated by the owner/ breeder/ requestor. While every reasonable effort is made to prevent faulty results, Unilever Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. The results relate only to the samples tested. Should gross negligence be proven, the claim shall not exceed the value of the contract. Some DNA profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unilever Medical Laboratories do not accept any responsibility for parentage mismatches due to incompatible marker scoring or reporting strategies between laboratories. Unilever Medical Laboratories participates in ISAG comparison testing and therefore incorporates international reference standards in the analysis. This certificate replaces all previously issued certificates.
