

Hi Ivonne!

I hope that you are well.

Ivonne, thank you for all of the effort that you and your team have gone through to help us.

I realise that it has been a busy time of the year for you, but I just need to bother with a small issue.

On the notice of cancellations, I have picked up on a misunderstanding for two animals.

CJC181010

CJC181012

They have both been cancelled incorrectly.

I realise that I said in my email that any animals marked in red have died.

I should have specified that I was referring to the "Service code" column of the Birth and Registration document only .

These two animals had been reregistered a few years ago and I marked them in red for that purpose.

I did however mark all of the animals that are present on the farm in the "service code" column with a dark purple colour.

These two cows included.

I hope this makes sense.

If there are any questions, please don't hesitate to ask.

Kind regards

Rob

Good day Rob,

I just want to know is CJC190002 still on the farm because it is not on the list.

Regards
