Goeiemore Chantelle.

Baie dankie.

Herstel asseblief ook LTS 120043.

Dankie by voorbaat.

Gawie Pretorius.

Goeie more,

Hoop dit gaan goed.

LTS 140073 & GNK 180044 is herstel soos versoek, die kallers moet asserblief aangeteken word voor Sondag 19 Julie, anders gaan die stelsel die koeie weer automaties kanselleer.

Dankie

Goeiedag Chantelle.

Ek sien by LTS 140073 en GNK 180044 is die 2024 kalwers nie aangeteken nie. Kan die twee koeie asseblief herstel word, dan teken ek die kalwers aan ?

Baie dankie.

Groetnis.

Gawie Pretorius. (Leitorus Bonsmaras)

Dear Breeder

The Logix system is a very refined system and many checks and tests are done before being incorporated into the system. Logix's aim is to ensure that all biological and breed standards are adhered to and thus ensure that reliable (clean) data is recorded for further use in Genetic evaluations. This results in Editing lists, also known as "Error lists" being generated after the clerk cannot resolve the issues, and the breeder must be contacted to obtain further information to record the transaction fully. Attached is your herd's Editing List and you are kindly requested to reply on every transaction. If such a transaction is not resolved within two (2) years, the transaction will be deleted from the system and you will have to resubmit it. These lists will be sent to you on a more regular basis for the purpose of improving our services to you.

We look forward to hear from you. Please sent feedback to the person from whom this email has been sent and not to Logix.

Geagte Teler

Die Logix stelsel is 'n baie verfynde stelsel en baie kontroles en toetse word op 'n rekord gedoen alvorens dit opgeneem word in die stelsel. Logix het ten doel om te verseker dat betroubare (skoon) data opgeneem word, wat voldoen aan biologiese sowel as
