Goeiemore

Vertrou dit gaan goed. Sal julle dalk JVJ 230024_0095748034 (M) kan her toets, Die hare is reeds by julle. Ons het `n verslag ontvang maar die pa match nie en volgens die eienaar is dit onmoontlik want al die ander kallers wat deur die bul gedek is is korrek op ons stelsel. Ek heg die vorige DNA verslag vir jul aandag

Die eienaar is Kiewiet van Jaarsveld

kiewiet.marina@gmail.com

0827077954

Ras: Sussex

Dier JVJ 230024, Pa JVJ 200018

Baie dankie
mooi dag

groete
Michelle

Goeiemore

Vertrou dit gaan goed daar by julle. JVJ 230024 se pa JVJ 200018 is nie bevestig nie. Sien aangehegde DNA verslag. Hy moet dus weer getoets word om die pa te bevestig.

Hi Michelle

Ons verstaan nie lekkee hoekom die dier pending is nie, want die pa se ID en DNS is op lys.

Unistel report these results on the premise that the biological samples received are from the individuals nominated by the owner/ breeder/ requestee. This Certificate replaces all previously issued certificates.
Disclaimer: While every reasonable effort is made to prevent faulty results, Unistel Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. The results relate only to the samples tested. Should gross negligence be proven, the claim shall not exceed the value of the contract.
Please note: some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatible marker scoring strategies between laboratories. Unistel Medical Laboratories participates in ISAG comparison testing and therefore incorporates international scoring standards in the generation of our STR profiles.

Geagte Teler

Die Logix stelsel is 'n baie verfynde stelsel en baie kontroles en toetse word op 'n rekord gedoen alvorens dit opgeneem word in die stelsel. Logix het ten doel om te verseker dat betroubare (skoon) data opgeneem word, wat voldoen aan biologiese, sowel as rasstandaarde vir verdere gebruik in Genetiese evaluasies. Rekords word in baie gevalle ingedien, maar is daar nog inligting uitstaande. Om te verhoed dat die transaksie verlore gaan, word die rekord aangeteken met n Hangende registrasie (Pending) status en rede. Dit veroorsaak dat sekere redigering eers gedoen moet word en addisionele inligting nodig is alvorens 'n rekord aanvaar word in Logix. Voorgaande het tot gevolg dat daar 'n Hangende registrasielys is, ook bekend as 'n "Pendinglys" wat die redigeerklerk nie kan oplos nie. Die teler moet dan gekontak word om verdere inligting te verkry, om die rekord volledig op te neem.

Aangeheg is u kudde se "Pendinglys" en word u versoek om asseblief dringend aandag te gee aan elke transaksie. Indien so 'n transaksie nie binne twee (2) jaar opgelos word nie, sal die transaksie van die stelsel verwyder word en sal u weer die transaksie moet indien. Hierdie lysie sal op 'n meer gereelde basis aan u gestuur word, met die doel om die diens aan u te verbeter.

Daar word graag van u verneem in die verband. U terugvoering moet asseblief gerig word aan die persoon wat die epos aan u gerig het en nie na Logix nie.

Dear Breeder

The Logix system is a very refined system and many checks and tests are done before being incorporated into the system. Logix's aim is to ensure that all biological and breed standards are adhered to and thus ensure that reliable (clean) data is recorded for further use in Genetic evaluations. Records submitted, in some cases, need additional information to be processed fully. To ensure that the incomplete data is not rejected by the system, the information is recorded with a Pending registration status and reason. This results in Pending lists being generated after the clerk cannot resolve the issues. The breeder must then be contacted to obtain further information to record the transaction fully.

Attached is your herd's Pending List and you are kindly requested to reply on every transaction. If such a transaction is not resolved within two (2) years, the transaction will be deleted from the system and you will have to resubmit it. These lists will be sent to you on a more regular basis for the purpose of improving our services to you.

We look forward to hear from you. Please sent feedback to the person from whom this email has been sent and not to Logix.

Groete
