Hi Michelle,

Hoop dit gaan goed?

Sien asb die volgende regstellings van die kalfies:

HS26-505 = Dood

HS26-512 = Skedule O vorm aangeheg

HS25-297 = Boran, nie n DM nie

HS25-618 = Manlike dier. Sal jy die geslag kan verander op logix asb?

Vriendelike groete

Dear Breeder

The Logix system is a very refined system and many checks and tests are done before being incorporated into the system. Logix's aim is to ensure that all biological and breed standards are adhered to and thus ensure that reliable (clean) data is recorded for further use in Genetic evaluations. This results in Editing lists, also known as "Error lists" being generated after the clerk cannot resolve the issues, and the breeder must be contacted to obtain further information to record the transaction fully.

Attached is your herd's Editing List and you are kindly requested to reply on every transaction. If such a transaction is not resolved within two (2) years, the transaction will be deleted from the system and you will have to resubmit it. These lists will be sent to you on a more regular basis for the purpose of improving our
