Hi Lea y Chantelle

Hope you are well!

I leave you attached the file with the inspection report of Marsala S.A. It was made on June 23 and 24, 2026. The inspector was Ramiro Ruiz de Los Llanos (0726268BON).

The file has 2 sheets (one for females and other for males), there are some animals that are not registered (see the status column), we need to register the ones that were approved but we don't have the information about the mothers without prefix/identification.

As always, BR is appendix A, BC is appendix B and PP is SP.

Please tell me if you need something else.

Thank you so much for your help!

Kind regards,

--
