Subject: REINSTATE AND TRANSFER AG 220539

Hi Tracey

Please could you request Stud Book to reinstate the cow AG 220539 she was cancelled on 25.01.2026 Non-compliance Society.
 Then she should be transferred to 334 BONSMARA STUD Mem No 0717187BON on 30.03.2026. She was included in a group of animals bought by breeder, but because she was culled on Logix she was not included in the original request by AG de Villiers & Seun Mem No 0697582BON to transfer.
 AG 220539 has now calved in the 334 Bonsmara Stud and we wish to record the calf.

Thank you in anticipation.
 Have a great day.
