

Subject: Syferpan Angus sire verifications
From: "James Moorcroft" <james@hvagri.co.za>
Date: 2026/07/20, 08:57 am
To: <marietjie@studbook.co.za>

Good morning Marietjie

Please see attached sire verifications & myostatin test results from Unistel for Syferpan Angus

Please note:

MTF21-0098 is recorded as 21-0030 at Unistel, DNA number is 13739U0004 (confirmed with Unistel)

Kind regards

JAMES MOORCROFT
Managing Director

Disclaimer

Unistel report these results on the premise that the biological samples received are from the individuals nominated by the owner/breeder/registrant. While every reasonable effort is made to prevent faulty results, Unistel Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. The results relate only to the samples tested. Should gross negligence be proven, the claim shall not exceed the value of the contract. Some DNA profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatible marker scoring or reporting strategies between laboratories. Unistel Medical Laboratories participates in ISAG comparison testing and therefore incorporates international scoring standards in the generation of our DNA profiles. This certificate replaces all previously issued certificates.

Disclaimer

Unistel report these results on the basis that the biological samples received are from the individuals nominated by the owner/ breeder/ requester. While every reasonable effort is made to prevent faulty results, Unistel Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. The results relate only to the samples tested. Should gross negligence be proven, the claim shall not exceed the value of the contract. Some DNA probes used in paternity analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for paternity mismatches due to incongruities between laboratories. Unistel Medical Laboratories participates in ISAG comparison testing and therefore recognizes international scoring standards in the generation of our DNA profiles. The certificate replaces all previously issued certificates.
