Good afternoon Nicola

As per information requested by Charl, please can we have the following information for 2250230023 (Matoppi) and 2250240138 (Bongi):

So, two things, we need a 'transfer certificate' showing that the animal was transferred to Northern Dorper Stud.

And, secondly, would be great if we could receive animals information in csv format to assist with import process

I look forward to receiving the above information as soon as possible.

Kind regards

William

Hallo Nicola

Will you please transfer ownership of the following Dorper rams to William Hundermark, he bought them on the Upington International Dorper sale last year November.

He will reply to you on this mail to give all the relevant details as he is an Dorper Breeder in Zimbabwe and the animals must be transfer to their system.

Ram number 2250- 23023 (Matoppi)

Ram number 2250-24138 (Bongi)

Thanks a Million
