Morning Jason.

Sorry for the delay in replying.

Was a bit hectic here the last few weeks.

These were calves of pregnant heifers that we bought from VSV Enterprises. Please find attached a letter giving permission for the DNA tests, thus also Genomic tests in order to be able to determine the father of the calves.

Hope this sort out the problem.

Kind regards

Sunja

Hello Lea and Sunja

The animal is stuck in the Genomic Error Table, as the sire HART 20-0032, is not indicated as being co-used by you Sunja.

Was this bull used by Zunica Bonsmaras?

If so, please can we get your herd added as a co-user with the appropriate dates?

Once this reflects then we can push the sire verification through!

Warm Regards

Jason

Beste Lea.

Die bul ZNCA 23-178 op my foutelys, se vaderskap is ter sprake.

Op die angehegte Genomiese toetsuitslae wys dit sy vaderskap is geverifieer. Kan jy dalk kyk hoekom hy nie intrek nie, asb.

Groete

RE: Registration of heifers to sires, breeding list and calves.

DATE: 11/10/2022

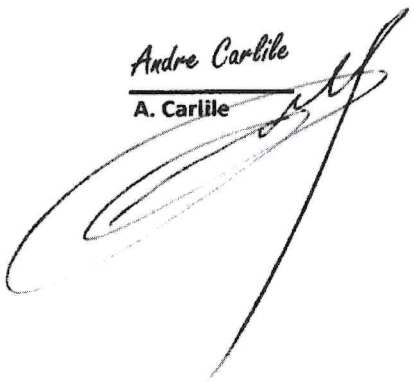

Please find attached a list of bulls that VSV Enterprises, Andre Carlile own and can be the possible sires to the list of heifers bought by Zunica Bonsmaras, N.J van Heerden. Please note that the heifers were sold pregnant to Zunica Bonsmaras. In the summary will also be the breeding list to whom the heifers were mated in a multi-sire breeding system, along with the mating dates.

I herewith give permission that the heifers may be tested by means of DNA and matched accordingly to their respective sires. Thus, may the calves born also be tested by DNA and matched to possible sires that I own.

Please feel free to contact me, should there be any questions.

Yours Truly
