Unistel report these results on the premise that the biological samples received are from the individuals nominated by the owner/ breeder/ requestee. This Certificate replaces all previously issued certificates.

Disclaimer: While every reasonable effort is made to prevent faulty results, Unistel Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. The results relate only to the samples tested. Should gross negligence be proven, the claim shall not exceed the value of the contract.

Please note: some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatible marker scoring strategies between laboratories. Unistel Medical Laboratories participates in ISAG comparison testing and therefore incorporates international scoring standards in the generation of our STR profiles.

Sorry I forgot to add that he was tested at Unistel under the number 230215 , we only later had their registration numbers.

Thank you please put the scrotum sizes under the seller's remarks.

ISHA230005 LOT18 - 40cm

ISHA230002 LOT 19- 39cm

ISHA230006 LOT 20- 43.5cm

ISHA230009 LOT 34- 40cm

ISHA230155 LOT 35- 42cm

Thank you very much for all your help.

Kind Regards
Lindsay.

Good day Lindsay

Scrotum size can only reflect in logix, if the bull was phase c or phase d tested.

You are welcome to send me a list of the bulls (lot no, tag number and the remarks you want, e.g. scrotum size)

I am unfortunately busy with other sales and will not be able to work through your vet report.

I do not see ISHA23-05 on the attached report?

Regards

Subject: ISHA ANGUS SALES BULLS.

Good Morning Linette.

Please find attached the report from Unistel showing that ISHA230005 has been tested for all 3 Myostatins, on the draft of the catalog it shows that he has only been tested for 2 out of the 3.

Also find attached the vet report for the bulls scrotum measurements, Logix would not load them as they say the bulls were too old when the measurements were taken. Would it be possible to put these measurements in the seller remarks section of the catalog?

Kind Regards

Lindsay
