Beste Chantelle!

Baie dankie vir die uitwys op die foutelys.

Geen wonder – Typo in die geboortedatum.

Kan jy die geboortedatum van HMB 23-0171 verander **van 18/12/2023 na 28/12/2023**.

Of moet ek die geboortekennisgewing weer laai?

Groete,

Hella

Goeiedag Hella,

HMB 25-178 (6020691314) & HMB 25-179 (6020691322) se geboortes is aangeteken in Logix, maar HMB 25-171 interkalf steeds met 2023 kalf.

Sien foutelys aangeheg.

Groete,

Beste Lea, beste Chantelle!

Hoop dit gaan goed?

Ek is nie seker wie hierdie registrasie hanteer, Lea of Chantelle...

Baie dankie vir die aanteken van my laat geboortekennisgewings.

Kan julle asb kyk of die pending kalwers soos op die foutelys geregistreer kan word?

Jammer vir die ongerief.

Groete,

Hella

Dear Breeder

The Logix system is a very refined system and many checks and tests are done before being incorporated into the system. Logix's aim is to ensure that all biological and breed standards are adhered to and thus ensure that reliable (clean) data is recorded for further use in Genetic evaluations. This results in Editing lists, also known as "Error lists" being generated after the clerk cannot resolve the issues, and the breeder must be contacted to obtain
