We appreciate your support and look forward to working together again soon.

We trust that all information provided to us is complete and correct. We can only provide results with the information we currently have on record. Some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatible marker scoring strategies between laboratories.

Ons waardeer julle ondersteuning en sien uit daarna om weer saam te werk.

Ons vertrou dat alle inligting wat aan ons verskaf word volledig en korrek is. Ons kan slegs resultate verskaf met die inligting wat ons tans op rekord het. Sommige STR-profiel wat in ouerskapanalise gebruik word, is moontlik van 'n ander laboratorium verkry. Alhoewel alle redelike pogings aangewend word om verkeerde resultate te voorkom, aanvaar Unistel Geneeskundige Laboratoriums geen verantwoordelikheid vir ouerskap-mispassings as gevolg van onversoenbare merker analise strategieë tussen laboratoriums nie.
