Hi Marietjie

I hope you're well.

Please can you help here.

WE2062 Comp No0090716770 had a male calf WE2636 DB21/07/26 BW40kg Sire Full Monty WB160119 Comp No0084044551. I'm not sure why it came out like it did.

WE2163 Comp No0092483296 At inspection by Chris Purdon I had spoken to Danie Dames about having this cow re-inspected and I told Chris about it and he said she was a good functional cow and passed her to be re-instated. This you can check with him as well.

He also re-inspected one of Beer Beef's.

Regards

Warwick
