Subject: Changes and Corrections required to Glynton Jerseys by Studbook 31 July 2026.xls

From: Peter Durham <pdurham@glynton.co.za>
Date: 2026/07/31, 11:07

To: wilanna@studbook.co.za, Tessa Opperman <tessa@jerseysa.co.za>, herd@glynton.co.za

Hi Wilanna

We have been reconciling the Logix Database with our Own Database and require the following changes to be made please - see attached spreadsheet

Please let us know when these have been done and send us a new per capita list in excel format to enable us check the corrections

Please phone me if there is any misunderstanding

1. Exits still on Logix

2. Reinstatement of animals with registration numbers that are no longer on Logix for some reason - the last two were changes I requested that did not happen correctly

3. Animals to be registered - I do not know why we are missing these animals as births are done via data dump weekly

4. Name changes that we require to be corrected

5. Two bulls that are actually females on our system along with their name corrections

6. Animals that have been checked by John Terblanche that do not Phenotypically meet Jersey Standards and need to be deregistered. Progeny alive are included

Regards

Peter Durham
