Hello Andrea

Thank you for the quick chat, as discussed Elsa made a booboo with the KKM of certain animals.

Marike and I are busy changing the genomic stuff from the JT animals to the J animals.

But, we need to fix the changes we made, here are the 3 JT animals who we changed to Storm as the sire, but we must change them back.

Animal - Lamb	Current_Sire	Update_to_Sire
JT 24-0063	92903640	92697317
JT 24-0002	92903640	92166800
JT 24-0042	92903640	92197540

Please let us know when they are changed back to the "Update_to_Sire" column as the sire

Warm Regards

Jason

About the sample listed here:

The animals is not JT but J .

I have made a mistake when I lock them in. they must be (see list of breeder attached)
