**Subject:** Transfer of ownership for litter

I need help transferring ownership for the below litter. I keep trying to do it on my own through Logix, but every time I log in nothing comes up for the litter, these puppies only show up as part of a part of dogs. I always forget how to do everything each time we get a letter. Let me know what else you need and how much it costs. The first puppy, "Peterbuilt Texas" stays with us.
