Today

Good Morning Guy hope you are well. I received a call from Marcel (Cornish). One of his dam's (COR 16 1010) has a calf, COR **23 1091** which is on his catalogue. However he wants to change the dam's number, as it must be COR **21 1010** as per the photo he sent me. Can you please give me permission to this as he said he has spoken to you. Have a great day!
