* More than one qualifying mother and/ or father identified for offspring

** Either mother or father can qualify as parent; no parent pair identified

Most likely parent allocated from parent list provided. No statistical support.

Disclaimer

Parentage is performed using the sire and dam list provided by the client.

It is the responsibility of the client to provide ZooOmics with all potential sire and/or dam candidates. This includes all AI bulls

and any other bulls should any extra sire and/or dam candidates be added in the future that may affect the parentage assignments.

This parentage summary is for information purposes only and is not intended to be used for any specific purpose or decision, as it

was not prepared for that purpose. It is a summary of the potential parentage assignments for a specific order and not an official

parentage certificate. Finalised results are sent on official certificates.

This parentage summary supersedes any previously issued parentage summaries.
