Dear Lea

Reference: 0735480BON

I trust that you are well. Kindly assist me with the following issue:

20/7/2026 BLU230002 had twins but initially we did not realize this and weighed and registered only 1 calf (BLU260009). Later in the day we found the dead twin half eaten by jackal. I did not think at the time to register the calf but have subsequently learnt that I should have done so. My apologies for this mistake. We do not know the gender of the calf because of the jackal. Please would you assist me with correcting this. I would like to suggest that we register its number as BLU260101.

Much appreciated.

Kind Regards

Deon Schröder
