Hi

Moet ek `n ESB laai vir die dier of gaan jy `n approval laai van jou kant af ?

Thank you very much for the feedback on this positive consideration – much appreciated.

Michelle, will you take this animal now of the PEN list automatically OR do I need to send you something additional on this?

Thanks and regards,

Junior

Good day Junior,

Thank you for your email.

Council discussed the matter at its last meeting and approved your request.

Please don't hesitate to contact me should you require anything further.

Kind regards

LIEZEL GROBLER

Subject: GBK 23-404 (95731691) - PEN

Good day Liezel,

Can I pse ask for the council's consideration on the following matter?

GBK 23-404 is a heifer born out of an embryo from JY 09-79 (69295962).

The challenge is that I never got my own DNA verified for JY 09-79 and from the looks of it, that the DNA on record for this embryo donor wasn't correct – and I'm therefor not able to verify that she is the dam of GBK 23-404. Although the thorough process of embryo development and transfer was followed with the help from InVitro.

This situation is causing GBK 23-404 to keep showing up as PEN. She has been inspected and also calved now... and the PEN status prohibits any administrative updates around this animal.

Can I therefor ask the council for consideration to move GBK 23-404 off the PEN list – in order for me to progress with the administration around this animal. While I’m waiting for a few more of her “sisters” to be born – in order to verify her DNA via this route?

According to Unistel – they need 5x of her sisters’ DNA to verify her DAM’s DNA... currently we have 3 x sets available and a number of embryos available – which will make it possible in future to verify her dam via this DNA route.

Furthermore, I’m very confident that GBK 23-404 “belongs” to JY 09-79 as she looks VERY similar to this donor cow, who had a very distinct look.

Should it not be possible in future – I will go ahead and cancel the animal.

Please let me know if any additional information or explanation is required to get this matter resolved?

Much appreciated and kind regards,

Junior Keyser
