Hi Chantelle,

I think there was a typing error, IC240859 links to ZOCA2025-82976 on our side.

I have Cc'd in the analyst dealing with the order who will re-print the results with the corrected lab number.

Kind regards,

Dear Eloise

Please see attached the following results:

1. The myostatin report
2. The polled report
3. The parentage summary with the list of offspring and sires that we used in the analysis on the last 2 pages

Please note the following from the paternity analysis:

1. The sample for IC250803 looks like a mixed sample; please kindly resubmit this to us.
 2. The follicles for IC250902 and IC250936 were not sufficient for a DNA profile; please also kindly resubmit these samples if possible.
- Should you need anything else, please let me know, and I'll be happy to assist further
