Good afternoon June,

I hope you are doing well.

ROULIO (Charolais bull) was loaded under **260743U001** on our system. Please note that it is an external profile on our side.

If there's anything else we can assist with, please don't hesitate to contact us.

Have a lovely day!

Kind Regards,
Heike Oosthuysen

We appreciate your support and look forward to working together again soon.

We trust that all information provided to us is complete and correct. We can only provide results with the information we currently have on record. Some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatible marker scoring strategies between laboratories.

Good morning Siliva,

I hope you are doing well.

Thank you so much, the document attached does have the STR Profile for Roulio.

We will upload the profile and do the necessary testing.

I hope you have a wonderful day!

Good morning,

I hope the document you are looking for is the one attached.

Normally we only have DNA analysis using the SNP method, but for the ROULIO AI bull, strangely

enough, I was also provided with this method.

Let me know if that's OK

Kind regards
Silvia

Good morning June,

I hope you are doing well.

Thank you for sending the profile.

The document you provided contains the SNP (genomic) profile. Unfortunately, we are unable to use SNP data for this particular comparison.

To perform the test, we require the animal's STR DNA profile (microsatellite profile), which contains marker names such as TGLA53, BM1818, ETH10, SPS115, etc., each with two allele values.

Would it be possible to request the STR DNA certificate from the laboratory that performed the testing and send it through to us? Once we receive the STR profile, we will be able to proceed with the comparison.

If there's anything else we can assist with, please don't hesitate to contact us.

Have a lovely day!
