We at RensBerg Boerdery would like to congratulate you on the purchase of the following Kalahari Red animals :

- 3 210056 (Ewe - Pregnant by Dismas)

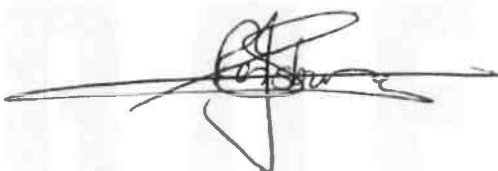

We trust that these Kalahari Red animals will definitely be an asset to your farm and that they will add massive value to your existing and growing flock at Lohini Boerdery.

We would also like to thank you for your continued support and that you see the value in our genetics.

With this letter of purchase we are also adding hard copies of the five-generation family tree of both the adult females and kindly request that you transfer them to your studbook as soon as possible.

Once again, congratulations with this purchase and good luck!

Kind regards,

Sjouke Janse van Rensburg
