Good day

All these are on the system except SK212066 & SK213042 - I cant load them under SK but under you Herd number which is MAD then I can put the SK in the name field for you to keep record of her calfs

Do you maybe know who the mothers of SK212066 & SK210342 is and if the maybe had inspections

I hope this makes sense - If not let me know

Hi Michelle!

Is it possible to have the cows in the table below registered so that we can have the bulls registered in the meantime.

I am working on the rest of the cattle in the meantime 😊

Kind regards,
