- ▶ Astute cattlemen from every region of the U.S. have used SALUDA for his rare combination of traits and rich pedigree.
- ▶ As his progeny data builds accuracy, SALUDA has lived up to his genomic predictions for making progress in multiple traits simultaneously.
- ▶ He has the unique ability to improve foot quality, Hair Shed, Heifer Pregnancy, Scrotal Circumference, PAP and marbling while maintaining a modest BW EPD.
- ▶ His calves are shiny black at birth and are very vigorous. They develop quickly and are consistently wide topped, deep ribbed with extra base width and muscle shape. His daughters are broody cow prospects and his sons are masculine herd sires.
- ▶ Study his EPD profile along with his pedigree combination, you won't find another sire with more to offer for multi-trait selection.
