agriculture, land reform & rural development

Department:
Agriculture, Land Reform and Rural Development
REPUBLIC OF SOUTH AFRICA

IMPORTATION OF SEMEN: AUTHORISATION NO. S0048/26-1

(Issued in terms of section 16 of the Animal Improvement Act, 1998)

Valid from: 2026/02/25 - Expiry date: 2026/08/24

Authorization is hereby granted to: **ABSOLUTE GENETICS INC**
of: **13 WILGE AVENUE, ROODEWAL, BLOEMFONTEIN, 9326.**

for the importation **BOVINE** semen of the **DROUGHTMASTER** cattle breed
from (country of origin): **AUSTRALIA** through (Port of entry): **OR TAMBO INTERNATIONAL AIRPORT**

Semen will be cleared by: **MEGAFREIGHT.**

List of animal's genetic materials to be imported:

Name of Animals	Registration Number	Number of doses
GLENLANDS D EI-EI-O	RSD229930M	42 (Conventional)
WISEREPRO: 27466 NEW ENGLAND HIGHWAY GLEN APLIN, 4381, QUEENSLAND, AUSTRALIA.		

TOTAL: 42

CONDITIONS

- 1) Certification by the exporting country that the number of unfrozen (live) spermatozoa per dose complies with the minimum amount specified on the reverse side of this document.
- 2) DNA profiles must be provided to the Register of Animal Improvement, and relevant Breeders Society before release from quarantine, if not available at time of importation.

This authorization is subject to the compliance with the veterinary requirements set out in the attached permit and is also subject thereto that the intended importation meets with all the provisions of the said Act. This authorization does not exempt the importer from the provisions of any other law. This authorization may be withdrawn by the Registrar should any false information be discovered in the application. This authorization is also not transferable. This authorization is for one consignment only and must be handed in and cancelled at the port of entry. Imported semen shall under no circumstances be transferred, sold, given, or donated to any other person or body unless prior written approval from the Registrar has been obtained. Any such approval shall be considered as new application for the importation of semen.

With reference to Permit No. E0001/26-1 dated 2026-02-25 issued in your favour by the Registrar of Animal Improvement Act 62 of 1998, authority is hereby granted to import into the Republic of South Africa from **AUSTRALIA** by air through O R TAMBO International Airport 116 frozen bovine embryos originating from (exporter) **CED WISE AB SERVICES, 27466 NEW ENGLAND HIGHWAY, GLEN APLIN, QUEENSLAND, 4381, AUSTRALIA**

subject to the following conditions:

1. The consignment must be accompanied by the original Veterinary Import Permit and the original Health Certificate issued by a veterinarian authorised thereto by the Veterinary Authority of **AUSTRALIA**
2. The conditions of the veterinary certificate on the reverse hereof must be complied with and the certificate duly signed by a veterinarian authorised by the Veterinary Authority of the exporting country.
3. The Quarantine Master / State Veterinarian at KEMPTON PARK, Tel 012 319 6588 or Fax 011 973 2828, must be timeously advised of the probable date of arrival of the embryos without whose authority the embryos may not be landed. The embryos may not be handled, distributed nor removed from the place of entry without written permission from the Quarantine Master / State Veterinarian.
4. The consignment is to be consigned to and distributed by the **ABSOLUTE GENETICS INC** AI Centre.
5. Embryos resulting from in vitro fertilization or embryos which have been subjected to sexing, splitting, cloning or any manipulation which interferes with or violates the integrity of zona pellucida are not eligible for export to South Africa.
6. This permit is valid for one consignment only.
7. This permit is subject to amendment or cancellation by the Director Animal Health at any time and without prior notice being given.

DIRECTOR: ANIMAL HEALTH

NOTE:

Any consignment imported into South Africa packed with either wood packing material or dunnage, will require treatment to remove any pests present (by heat or methyl bromide fumigation). Treatment must be indicated as per IPCC prescript on wood packaging material. [Enquiries: Directorate Inspection Services Tel: 012 309 8754 or fax 086 732 4768 or www.daff.gov.za].

VETERINARY HEALTH CERTIFICATE FOR THE IMPORT OF BOVINE EMBRYOS

I,a veterinarian authorised thereto by the Veterinary Authority of.....
hereby certify that the following conditions have been complied with in connection with the bovine embryos to be exported to the Republic of South Africa under cover of the veterinary import permit issued by the South Africa:

1. The team conducting the collection of the embryos is officially recognised as an embryo collection team by the veterinary authorities of the exporting country and the collection procedures followed by the team are in accordance with the stipulations of the Manual of the International Embryo Transfer Society (IETS-Manual). This includes the trypsin wash .
2. The embryos were sired by bulls whose semen qualified for export (according to RSA semen import protocol) and who were continuously resident at an AI centre which is under the control and supervision of a veterinarian approved by the State Veterinary Authority, for a period of at least one (1) month prior to collection, and in that time had not been used for natural mating.
3. The country is officially free from Vesicular Stomatitis.
4. The country or zone where the donor originate from is an OIE recognised Foot and Mouth Disease free zone without vaccination.
5. There has been no clinical, pathological, laboratory or other evidence of Johne's Disease for the past 3 years in the herd of origin.
6. The donor cows -
 - 4.1 are healthy and clinically free from diseases known to be transmitted via semen or embryos;
 - 4.2 have passed with negative results-
 - 4.2.1 intradermal tuberculin tests with both avian and mammalian tuberculin within three (3) months or that the animals originate from certified tuberculosis-free herds;
 - 4.2.2 complement fixation tests for brucellosis within three (3) months prior to removal of embryos or collection of semen, or that the animals originate from certified brucellosis-free herds;
 - 4.2.3 a virus isolation test on blood by tissue culture inoculation for three passages, for Bovine Viral Diarrhoea;
5. The embryos were:
 - 5.1. Conceived by in vivo fertilisation
 - 5.2 examined at least 50x magnification and the entire surface of the zona pellucida found to be intact and free of adherent material. The embryos were not manipulated in any way.
 - 5.3 washed, including trypsin treatment, processed, put into straws, frozen and the straws marked according to the guidelines laid down in the IETS Manual.
 - 5.4 not washed more than 10 together and not washed together with embryos of other donors.
 - 5.5 shipped in cleaned and disinfected containers, filled with unused cryogenic material, and sealed under official veterinary supervision.
6. Embryos resulting from in vitro fertilization or embryos which have been subjected to sexing, splitting, cloning or any manipulation which interferes with or violates the integrity of zona pellucida are not eligible for export to South Africa.
6. Identity and description of donors, description and number of embryos, consignor, consignee, Embryo Collection Team, Embryo Collection Centre, container and seal numbers, approved processing laboratory must be stipulated on the Veterinary Certificate.

Dear Importer

RE: IMPORTATION OF BOVINE SEMEN FROM AUSTRALIA TO SOUTH AFRICA

With reference to the bovine semen being imported by Johan Dannhauser from Australia into the Republic of South Africa.

I hereby confirm that the bovine semen for which our office issued a Veterinary Import Permit no. 13/1/15/2/3-202603002836, dated 2026-03-31, issued to Johan Dannhauser, may be imported into the Republic of South Africa with the following dispensations;

With reference to clause 5.X. of the veterinary health certificate;

"Bovine viral diarrhoea/mucosal disease: the donor bulls were subjected to an antigen detection ELISA or virus isolation test with negative results for bovine viral diarrhoea and a serological test, prior to entry into the approved semen collection centre. Serology should be repeated at least annually with negative results. Should a previously seronegative resident donor bull become serologically positive, an aliquot of each semen collection from that donor for this consignment must be subjected to a virus isolation test or PCR test with negative results. Animals with a negative status should remain isolated from other animals that have not tested negative."

The bovine semen may be imported into South Africa on condition the semen complies with the following;

- the semen donors tested negative for BVD by antigen capture ELISA, Virus Isolation or PCR and positive for BVD on serology prior to entry into the semen collection centre,
- the serological titre for BVD of the semen donor has remained stable during the donor's period of residence in the semen collection centre,
- and each batch of semen collected, for export to South Africa, tested negative for BVD on PCR.

All other conditions on the Health Certificate must be complied with. This dispensation

is given on a one-time basis and may not be repeated without written permission from this office.

A copy of this letter, together with the originals of the Veterinary Import Permit and Health Certificate, must accompany the bovine semen and be presented to the Veterinary Official at port of entry on arrival of the bovine semen in South Africa.

Yours sincerely

For DIRECTOR ANIMAL HEALTH
